# "TRANSFORMER" MINI SIDE LOADER

The Kann Curb Master Series **TRANSFORMER** Mini Side Loader comes standard as a dual manual side loader, but can easily be **TRANSFORMED** into a semi-automated or automated unit by adding cart tippers or an automated arm package to one or both sides.

Manual Loading

The KANN Transformer Mini Side Loader can be made in any combination of manual, semi-automated or automated dual side loader at any time during the life of the truck

Semi-Automated Loading

Automated Loading

**Dual Automated**

*This highly versatile side loader, when equipped with the dual automated arm package TRANSFORMS the unit into the ultimate alley truck, allowing the operator to simultaneously collect carts from both sides of an alley, while driving in one direction without the need to backtrack or exit the cab!*

### REFUSE & RECYCLING BODY COMPANY

Established 1946

#### CURB MASTER SERIES

#### Model MSLE-T

# "TRANSFORMER"

The KANN MSLE-T comes in sizes ranging from 10 to 20 cubic yards with full eject unloading capabilities that can be mounted on a single or tandem axle chassis and is capable to safely pack between 6 to 9 tons of payload. The low-profile body and low cart tipping load mechanism makes this a perfect collection truck for narrow and low height alley requirements. The light-weight structural body design with the dual automated arm package weighs less than 8,500 lbs., maximizing payload capabilities.
